Not Just Another Tarp System

PUT YOUR MARKETING TO WORK FOR YOU

CUSTOM LASER GRAPHICS

Every one of our systems uses premium quality vinyl and UV ink that cures on the vinyl giving it the longevity required to meet the demands brought on by moving your freight in an extreme environment. With printing ability up to 1000dpi, you can make sure your brand is represented in the best possible way.

IN HOUSE DESIGN TEAM

Many of our customers provide their own designs that we bring to life. In the event you do not have a marketing team, our in house design team is capable of being your "marketing team to-go". Our accredited graphic designers and marketing specialists can bring your vision to reality in a way that will help you stand out from the competition.

COMPLETE GROUND OPERATION

The Quick Draw Tarp System was built with safety in mind. Operators can easily open and close our system from both the front or rear of the trailer without their feet leaving the ground.

LOWEST PRICE OVER PRODUCT LIFE

Quick Draw's customers who own a combination of Quick Draw and competitive tarp systems compared costs and showed Quick Draw to be the lowest cost tarp system over a 3 to 5 year period. With Quick Draw, you can ensure maximum uptime and less repair costs in the future.

STANDARD PRICING

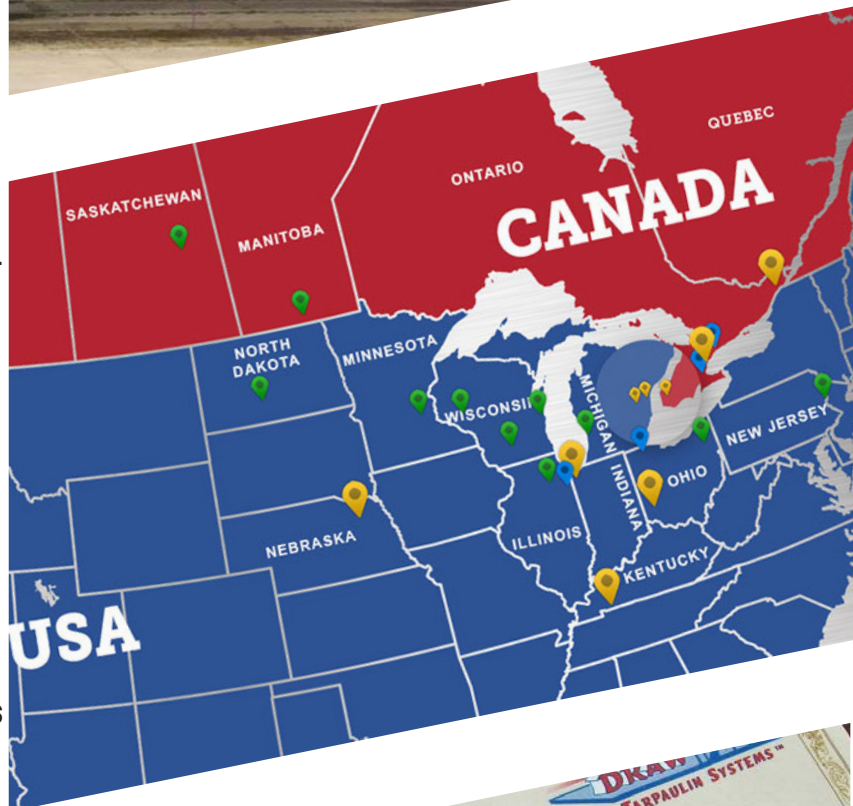

Quick Draw has standardized pricing for all of our parts, service and customers. This stands true across all our branches, dealers and repair facilities regardless of geographic location.

MOST FULL-SERVICE BRANCHES

Quick Draw continues to grow its ability to serve customers better by having 9 company owned branches that are fully capable of installations and repairs. Combine these branches with over 25 qualified dealers across North America and Quick Draw provides its customers with superb access to repair facilities whenever and wherever needed.

TOP GRADE WARRANTY

Quick Draw comes with a standard 1 year warranty on manufacturing defects or workmanship. The 4" top rolling wheels and frame structure are covered with an exclusive 5 year warranty. The Quick Draw warranty covers BOTH PARTS AND LABOUR! Every Quick Draw system includes a written warranty and FREE 6 month and 12 month inspections.

MOST FEATURE-RICH BASE PRICE

For each feature of the base Quick Draw system, one can point out a few competitors that also have that feature, but you will not find any competitor that has them all. Quick Draw is the most feature rich base tarp system.

SAFETY

Along with complete ground operation, the Quick Draw Tarp System is strong, durable and extremely easy to operate. The system opens and closes in minutes allowing you to pick up and drop off loads as quickly as possible. While on the road, the system is strong and durable giving you peace of mind when hauling through any weather condition.

BUILT TO LAST

Quick Draw tarp systems have over 20 years of proven reliability. This top quality product maintains its structural integrity year after year. Quick Draw customers experience less downtime and more years of reliable service.

PARTS ARE READY

Combining a modular design with a framework that has been consistent over the past 20 years and serial numbers for each tarp system provides customers with the benefit of replacement parts that are always ready for shipment and always fit properly. These are important aspects of Quick Draw's commitment to keep customer's vehicles on the road longer with less downtime.

WHEELS AND TRACK

Quick Draw's patented 4" diameter top rolling wheels and track does not catch dirt. High performance, high temperature range grease is used in sealed guide wheels to ensure smooth rolling in extreme weather conditions. These top quality wheels are long lasting, easier and less costly to change than other competitive tarp systems.

SLIM AND STRONG HEADBOARD

Strength in all the right places with its headboard featuring 3/16" aluminum plate professionally welded to a high strength framework. All of this strength is in a very slim headboard measuring only 5.5" from its front face to back. The headboard is front mounted to the vehicle to maximize bed space.

COMPACT

When fully retracted, the Quick Draw tarp system only occupies 8 feet of bed space.

TARP TENSIONING AT BOTH FRONT AND BACK

Quick Draw is amongst the most versatile tarp systems by providing complete tarp tensioning capability independently at the front and back of the tarp system.

EXCEPTIONALLY TIGHT TARPS

Quick Draw provides extremely high tension to tarps. This makes vehicles look good, makes tarps last longer and increases fuel economy. Quick Draw uses quality vinyl tarp material and in-house laser graphics service where printing quality can be controlled to the highest levels.

NO FASTENERS THROUGH TARP

For outstanding appearance and long tarp life, there are no fasteners poking through the vinyl tarp material anywhere on a Quick Draw tarp system.

KEEPS THE WEATHER OUT

Quick Draw developed and perfected self-sealing bottom tarp edges to keep weather and road spray outside the tarp system.

ADJUSTABLE REAR BOW

Quick Draw pioneered the idea of the adjustable rear bow to equalize tarp tension from top to bottom and make minor adjustments to compensate for tarp stretch and loading conditions.

MANY OPTIONS AVAILABLE:

- ✓ Headboard Access Door
- ✓ Interior Ratcheting - for tensioning the tarp system from inside the vehicle
- ✓ Interior Spot Lights
- ✓ Chain Binder Bars, Shelves and Boxes - mounted behind the headboard
- ✓ D.O.T. Approved Headboard
- ✓ Wind Deflector (Nosecone® Brand) - to increase fuel efficiency
- ✓ Headboard Lightbar
- ✓ Four Point Lifter Bows - to raise the tarp over high loads
- ✓ Van Doors
- ✓ Under Track Lightbars Mirror Finish Stainless
- ✓ Steel Wrap - for most aluminum hardware components
- ✓ Quick Lock™ Rear tensioning
- ✓ Air Release Front Locking
